ABOUT ME

A Computer Science student at GCUF with a strong interest in full stack web development and artificial intelligence. Passionate about learning modern web technologies, both front-end and back-end, and building practical, scalable applications. Focused on improving skills through consistent practice and real-world projects.

WORK EXPERIENCE

Algorydhem Developer

Apr 2026 – Present

Working as an Algorydhem Developer has provided me with valuable real-world software development experience. I have learned to analyze requirements, understand client needs, solve complex problems. This role has strengthened my problem-solving, debugging, and logical thinking abilities while giving me hands-on experience with the complete development process, from planning and implementation to testing and optimization.
